1. Check the below scale to make sure-that the document is printed on its real size: :

10 cm

If the line does not measure 10 cm, check your print options, unselect « adjust to scale » and reprint it.

2. Select one of your rings (preferably a thin one like a wedding ring) that fits perfectly to the finger you want to wear the ring on. Be careful, finger size can vary from your left hand to your right hand.

3. Put your ring on the below circles. When the black circle is just inside of your ring, then this corresponds to your finger size. The entire circle should appear inside the ring without any white background between the circle and your ring.

4. If your ring is between two sizes we recommend to chose the biggest one.
